Compiling the software

This program is written in object Pascal) or ob:ect-oriented pascal. *ascal is a strong-typed) structured programming language. (a; a

This source code can be compiled either using (a; arus) a 87< 5</ for the 4ree *ascal . ompiler) or using 9orland <elphi.

+n # indows"

The software compiles well with both 9orland <elphi & and =A9bg d ier   e

Th   i   ;srgr a<e d p1uicmp<   compi hi

Description of the files

This files contain pascal code for the Virtual Magnifying Glass.

app.pas app.dpp

*ackage scripts"

Under the `build` directory you can find build scripts capable of generating redistributable packages for the users.

```
build1
        buildDpackage.sh              ---- Generates .r.b; 3 packages
        magnifier.spec                ---- 8*M spec file. Use /macs to build a 8*M  us8*
```
